- 3.2.1 The municipality is currently owing the suppliers a total amount of **R16,9 million** as at 31 December 2025. The trade creditors from the supply of goods and services reflected on the table includes the trade and other payables that are payable in 30 days with no dispute and those that are paid in terms of payments arrangements as indicated from the explanatory tables below.
- 3.2.2 The other creditors constitute a balance of R58 million includes Human Settlement Grant amounting to R30 million which has been rolled forward from previous financial years and the accumulated amount of leave payable to its employees which amounts to R28 million.
- 3.2.3 The district has finally effected the credit notes from Rand West City LM due to the signed offset agreement between the two municipalities. The impact of this settlement agreement has significantly reduced the balance owed to the Rand West City LM due to the correction of interest incorrectly levied to the utility account.
- 3.2.4 The municipality has payment arrangements with those creditors that are in arrears to comply with and improve adherence to section 65(2) (e) of the MFMA. The institution is obliged to honour payment arrangement terms as the interest charges will remain suspended. The creditors that are paid in terms of payment arrangements are Rand West CLM and SALGA.
- 3.2.5 To date the municipality has managed to settle the outstanding debt with the Department of Labour.
- 3.2.6 The creditors from the above table have an impact on the Statement of Financial Position hence the overall negative net community wealth and low current ratio.

The breakdown of the creditors' age analysis by customer balance for the quarter ended 31 December 2025 is made up as follows:

4.4.1. A summary of the cash flow statement for the quarter ended 31 December 2025 is reflected in the table above with the closing balance of R54,673 million with an estimated shortfall of R23 million after considering the commitments and unspent grant. It is crucial for the municipality to access overdraft facility which will be settled once the municipality receives its equitable share. This will assist in paying obligations within the legislated timelines and manage its cash flow effectively.

4.4.2. The additional table for cash flow analysis indicates the affordability status of the municipality and confirms that the municipality will not be self-sufficient in the foreseeable future since it

is grant dependent. The municipality will not be able to meet all obligations in the month of March 2026.

The following table sets out consolidated financial performance indicators of the municipality:

Number	Description	Basis of calculation	YTD 2025/26
1	Current ratio	Current assets/ Current liabilities	0.69:1
2	Liquidity ratio	(Current assets – Inventory)/ (Current liabilities – Provisions – Leave payable – Human Settlement Grant)	2.15:1
3	Working capital	Current assets – Current liabilities	(R 29,476 million)

The **current ratio** is a financial ratio that measures whether or not the municipality has enough resources to pay its debts over the next 12 months. It compares the municipality's current assets to its current liabilities with a standard norm of 1.5 and 3. The ratio of 0.69:1 shows that the municipality will struggle to meet its short-term obligation for the next reporting period. This ratio varies from month to month, due to the nature of municipal revenue sources.

**Liquidity ratios** attempt to measure the municipality's ability to pay off its short-term debt obligations. This is done by comparing the municipality's most liquid assets (or, those that can be easily converted to cash), to its short-term liabilities. The ratio of 2.15:1 shows that the municipality will be in the position to meet its current obligations within the period of two month provided that the non-cash liabilities are excluded in the calculation.

**Working Capital** is a measure of both the municipality's efficiency and its short-term financial health. Working capital is calculated as: Working Capital = Current Assets - Current Liabilities.

## 7. The key summary of the financial risks associated with the financial performance to date

- a. The current ratio is at 2.68:1 which is within the standard norm of 1.5 and 3.
- b. The year-to-date salary bill is at 77% of the total expenditure which higher than the standard norm of 25% to 45% of the total expenditure
